

- **Camden Student Member of the Executive Committee:**

- **Mark Bodrog** (Graduate School-Camden): I have served in the Rutgers SGA-Camden since May 2014 as a Senator for the Graduate School of Arts and Sciences. I am currently in the Graduate School at Rutgers-Camden and I am earning my MA in Criminal Justice. My experience as a Senator for the Graduate School of Arts and Sciences has been one of humility and respect in an effort to serve my student and faculty body. It has been a true privilege to serve in this capacity and to have the responsibility of improving their academic experiences and representing their views in the Rutgers-Camden Student Governing Association and University Senate. I hope to continue this service to my school by earning a position in the Executive Committee, in order to better represent the students and faculty of Rutgers-Camden.

- **Newark Student Member of the Executive Committee:**

- **Edmund Janniger** (School of Public Affairs and Administration): I am Edmund Janniger, a student at the School of Public Affairs and Administration. Committed to public service, I am the Founding President of the Rutgers Council on Public and International Affairs. I focus on bringing policymakers and diplomats to campus, recently hosting U.S. Senator and Ambassador Robert Krueger and Congressman Herbert Klein, and heading the intercollegiate Model United Nations team. I am honored to be a Senator, serving on the University Structure and Governance Committee and boosting a perfect attendance record. I strongly believe in shared governance and would like to see a further empowered Senate.
- **Hamzah Raza** (Newark College of Arts and Sciences): My name is Hamzah Raza and I am interested in pursuing a position on the Senate Executive Committee. I am currently a Mathematics major. Math intrigues me because it is the universal language, a form of logic that anyone around the world can follow. Just as in a math problem, one tries to solve the problem in the easiest way possible, I hope to use my position on the University Senate Executive Committee to solve Rutgers' problems in the most simplistic and straightforward way possible. In my time in the Senate, I have been disappointed to see that some of the great solutions we vote on and pass get left somewhere in Old Queens without ever really being addressed by the administration. As I pursue a role on the Senate Executive Committee, my main goal is to find an effective means of having the Senate's voices heard and effectively relaying student, faculty, staff, and alumni concerns to the administration.
