

Edmund Janniger's Statement in Support of His Candidacy for University Senate Executive Committee Newark Student Member:

I have completed my second term as a member of the Rutgers University Senate Executive Committee, and would be grateful for your vote to continue representing you in this crucial body. I am entering my third year serving in the University Senate, and as a member of the University Structure and Governance Committee (USGC). During the coming year, my principal priority will be leading the battle for the establishment of Senate-elected voting members of the Board of Governors. Owing to my experience, track record, and understanding of Senate inner workings, you can be sure that I will vigorously protect our shared values and interests. My recent accomplishments include spearheading the successful effort to establish an ad hoc University Senate committee, leading the fight against administrative overreach at Rutgers University–Newark impeding the right of students to have the major and minor of their choosing, effectively tackling the complexities posed by unit restructuring, and helping resolve challenges surrounding the selection of commencement speakers. I hope to merit your support, and would be grateful for your vote for my reelection.
