

Board of Governors Representatives Report:

The Board of Governors met on July 9th and approved the current fiscal year budget. Vice President Cathy Brennan presented a budget presentation which highlighted themes within the budget such as financial discipline; affordability and access; investment in the mission of teaching, learning, research, facilities and IT; and shared accountability and execution with cross campus collaboration, locally made decisions, and alignment across leadership.

As a staff representative to the Board of Governors, I'll be meeting with Rutgers-Newark staff on Monday September 21st. The next Board of Governors committee meeting is September 23rd in New Brunswick, and the next public Board of Governors meeting will be on October 1st in Newark.
